TUTMAN B&CE Contracted-out Pension Scheme	The People's Pension
This is a 'closed' scheme which means the pension scheme no longer accepts new members or receives contributions.	This is an occupational pension scheme. If you are a member, you'll have joined and started contributions through your employer or via a transfer in from another pension scheme.
Investment options – we package groups of investments into funds which are available for you to choose how you may want to invest.	
There is one available investment fund made up of shares, property, fixed interest securities and deposits.	You have a choice of 8 investment funds made up of stocks and shares, fixed interest securities and deposits depending on the fund.
Investment profile – an investment profile brings together a group of investments, each with a different level of risk.	
The fund aims to provide long-term growth for your pension savings on a medium-risk, balanced basis.	There are 3 investment profiles for you to choose from, which cover medium-low, medium and higher-risk attitudes to investment risk.
Glidepath – as you near retirement, we start moving your money into lower-risk investments. This means they are less likely to suffer a large fall in value just when you want to use them.	
The glidepath doesn't apply. So there's no option to move your pension savings into lower-risk investments as you near retirement.	Each investment profile has an automatic 15-year glidepath, which gradually moves your funds into lower-risk investments as you near retirement. If you self-selected your investments the glidepath doesn't apply and you're responsible for managing your investments.

SUMMARY									
<p>Charges – there is a cost of administering your pension known as the annual management charge (AMC). The AMC is charged as a percentage of the value of your pension savings each year and is reflected in the unit price of the fund. However, there are other costs which consist of management fees and additional expenses such as legal fees, auditor fees and other operational expenses measured as the Ongoing Charges Figure (OCF).</p>									
The AMC for the fund is 1%. The new OCF is 1.10% (which includes 1% AMC).					The AMC/OCF is 0.5%				
<p>Fund performance – the cumulative fund performances over a 10 year, 5 year, 3 year, 2 year and 1 year period as at May 2019 are as follows. Please note that the past performance is not a guide to future performance.</p>
